

Action items from previous meeting

1. Analyse test-specific case data
2. Pre-process data for updated reporting schedule
3. Visualise extra-long delays

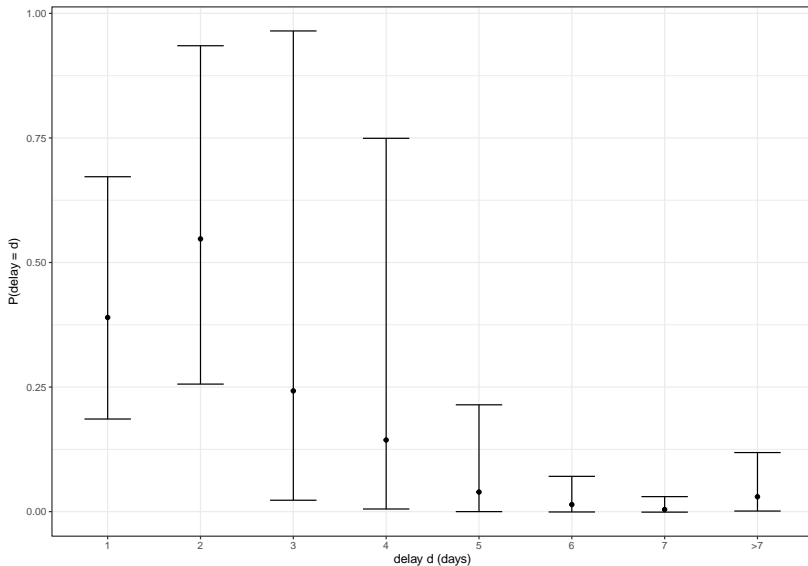

Test-specific case data

New cases by specimen date is the sum of three separate data sources:

1. LFD only
 - ▶ Identified by LFD and not confirmed by PCR within 3 days
 - ▶ If subsequent PCR is negative, cases will be removed
2. LFD confirmed by PCR
 - ▶ Identified by LFD and confirmed by PCR within 3 days
 - ▶ Date reflects LFD test date
3. PCR only
 - ▶ Identified by PCR excluding those identified by LFD within 3 days.
